Brad Steiger, Sherry Steiger : Conspiracies and Secret Societies: The Complete Dossier before purchasing it in order to gauge whether or not it would be worth my time, and all praised Conspiracies and Secret Societies: The Complete Dossier:

0 of 0 people found the following review helpful. Excellent "laundry list"!!By Brad B.This book is a wonderfully written encyclopedic work of mankind's secret societies and conspiracy theories. i don't believe the authors intended there to be a thorough discussion of all subjects mentioned...but rather an excellent starting point for the reader to conduct additional research.There are many topics I've never heard of in the book and I'm enjoying skipping around a.nd reading those first.Nicely written...Thank You!!0 of 0 people found the following review helpful. Pretty goodBy TLRThis is a worthwhile overview of the conspiracy literature, though it's not perfect. It's missing subjects like the USS Liberty attack and the Franklin child sex ring in Nebraska. It's also centered on Anglo-American cases (there is nothing about Gladio, the Dutroux human trafficking ring in Belgium, the assassinations of Aldo Moro and Olof

Palme). Some articles are better written than others. Separating fact from fiction can be difficult. There are also too many entries about political groups (religious extremists, racist groups) that do not qualify as conspiracies or secret societies. But overall, there is a lot of information here and it's a good introduction to the subject. 0 of 0 people found the following review helpful. Excellent resource. By shawn r. I've collected tons of "conspiracy" books since the mid 80s - There is a lot of content in here that you can find in other books, but there's a lot of new content in here as well. The material is well researched - it doesn't read like it was put together by a nut who didn't question the first thing they heard before repeating it as gospel. Very informative, intelligent - a must have for the serious collector of this kind of information. Presented in an encyclopedia format, you can open it up anywhere and start reading, or go from A to Z. By far this is the best "all-in-one" book in my own library.

Startling allegations. Suppressed evidence. Missing witnesses. Assassinations. Cover-ups and threats. Documented connections to even deeper intrigue. Allusions to the New World Order. Coincidences? Too many to be mere coincidence? American history is replete with warnings of hidden plots by the Illuminati, the Freemasons, the Zionists, the Roman Catholics, the Communists, World Bankers, the Secret Government, and Extra-Terrestrial Invaders, to name a few. Separating fact from fiction, this compelling work provides gripping details and presents the information without bias, including hundreds of individuals, organizations, and events where official claims and standard explanations of actions and events remain shrouded in mystery. *Conspiracies and Secret Societies: The Complete Dossier* examines the most common subjects among conspiracy theorists, from historical topics such as the true relationship between Jesus and Mary Magdalene, the Roswell UFO crash, and the assassinations of John F. Kennedy and Martin Luther King Jr. to more current issues such as the death of Princess Diana, FEMA's response following hurricane Katrina, and the recent earthquake and tsunami in Japan.

From BooklistName a conspiracy theory that has made its way into the popular mass media, and it is most likely included in this informative and entertaining encyclopedia, which provides an introduction for anyone looking for "the basics" about any of the well-known and even lesser-known theories. Included among the nearly 200 alphabetically arranged entries are Diana, Princess of Wales; Internet--a tool of the new world order; Knights Templar; Raelians; and Roswell, New Mexico, UFO crash. Entries range from short paragraphs to several pages in length, and sources are listed. The writing style is elementary without being condescending. The authors state that they are "reporting without bias." This does appear to be the case, based on reading random entries on a wide variety of subjects. The index makes up somewhat for the lack of cross-references. A list of "Resources to Assist in Conspiracy and Secret Society Research" includes recommended books, films, and Web sites. The volume is attractively laid out, with black-and-white images, sketches, and photos. This is a captivating look at a topic that fascinates many. Recommended for public libraries and elsewhere where interest is apparent. Terri Tomchyshyn Copyright American Library Association. All rights reserved "This is truly an astonishing encyclopedia of conspiracies of every kind and secret societies of every dark shade, from antiquity right up to the present day. ... It's another must-have." About.com "The Steigers' present in this massive book a truly wide and fascinating range of material dealing with an endless array of startling scenarios of conspiracy and secret societies. There's virtually everything here." *Alternate Perceptions Magazine* "If you're not already paranoid, you may be after reading this book. This primer hits the highlights of murder plots, suicides, extraterrestrials, government cover-ups, and religious mysteries throughout the centuries." Booklist "Well worth adding to any library but be forewarned: reading this work may just change your outlook on life, and for that matter, the entire world you thought you knew radical shifts in your accepted reality may await!" *gralienreport.com* "Just about every odd, secretive and intellectually indulging subject is proposed and explained [I]n the scope of conspiracy and secretive societies published works goes, this has to be my favorite. Definitely worth the price of admission!" *Horrornews.net* "[A] wonderful read: It calmly and rationally explains the sort of urban myths and conspiracy theories that we all hear dribs and drabs about around the water cooler, but of which few of us really know the details? In a straightforward manner, [the Steigers] present evidence for a theory and evidence against it. [An] always entertaining, sometimes funny, occasionally disturbing reference book." *Orange County Register* "Riveting tome.... Written in an accessible, entertaining style.... Chock-full of engrossing and provocative articles.... While this work may offend, enrage, and even frighten some, it's sure to be a hit with conspiracy enthusiasts." *School Library Journal* "From Alchemy to Zionism this fearless masterpiece breaks down the truth and filters through the lies, presenting the reader with a clear and precise picture of the world around them. Big thumbs up!" *The Conspiracy "Top Ten Synchronistic Books of the Year" The Twilight Language*
