Yuji Susaki : Cosplay: Made in Tokyo (Japanese Edition) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Cosplay: Made in Tokyo (Japanese Edition):

6 of 6 people found the following review helpful. Excellent, Thoughtful By R. Pylman I'll be honest. I bought this book because of the cover photo. I figured it would have more sexy photos within, showing Japanese cosplayers displaying a lot of flesh. And it doesn't disappoint in that regard... there are indeed several different models in several different costumes, and all of them seem to be making an effort to be provocative. But somehow, they fail to actually be *sexy*. There is very little text, and what there is, is presented in both Japanese and English. The photos are excellent, the costumes (particularly the Alice costume and the Gulliver costume) are very well done and well presented. But... it doesn't quite connect, and I can't even say why. 3 of 3 people found the following review helpful. Beautiful Photo

BookBy JPMany extremely beautiful Asian models wearing very sexy outfits in provocative poses, nearly all the pictures are taken against a white backdrop so there isn't much scenery aside from the models. Also take note that the "cosplays" in this book are not closely associated to those of any particular anime show. There are for example Maid costumes, Nurse costumes, but none of them reference a specific anime character.2 of 2 people found the following review helpful. a great book to see some top quality cosplay photos and costumesBy G. FlickingerThis cosplay photo book, is well done, with a good selection of images, the cover is a little misleading, but it does grab your attention. Overall the cosplay displayed in this book has been some of the most professional I have ever seen.
