Absolutishiously!By AiijuinGraphicsI'm an art lover and a professional Comicbook artist who gives massive service in everything I draw... but I'm also an avid movie fangirl... So, when I saw this book - I knew I had simply discovered the best of all three of my interests clumped into one book.After opening it, I was immediately immersed in some of the most imaginative, wry, and often hilarious pieces of incredible art.Man, even if you dislike the stuffy gallery of art scene, if you enjoy movies and cult classics, campy B-flicks, and nostalgic greats, then I believe you will like this.0 of 0 people found the following review helpful. You really DO wanna get this bookBy PiperstashI started listening to

Jensen On the smodcast network when he sat in on plus one. He was talkin about the gallery 88 stuff and it sounded pretty awesome. Then Jensen got his own show "get up on this" which is worth a listen as its a great show to turn you on to some cool stuff. Again, the book got brought up and I thought this would be a pretty cool thing to have around. So I went ahead and ordered it and lo and behold, put it out on the coffee table when we had a little get together and everyone went GAGA over it. Not only is the artwork awesome it helps to remind you of all the awesome movies from childhood. There's a few I actually wouldn't mind getting the full print of. MY favorite is the 8-bit world one, where it has tons of characters from all the tv etc from the time but it looks like its right out of a nintendo game. A great purchase that I'm sure you will pick up over and over again. Also check out "Just cant get enough" Jensens other book which is all about 80's toys. 0 of 0 people found the following review helpful. Full of fantastic art By Nick SI absolutely love this book. There's paintings that depict JAWS, Clerks, Edward Scissorhands, Evil Dead, Willy Wonka, Pulp Fiction, The Big Lebowski and many more cult classics in ways I never imagined. Some of my favorite pictures are a Willy Wonka version of "Appetite for Destruction" some eerie Donnie Darko paintings, and a collage of cult favorites spread over the entire page. You won't be disappointed with this purchase, I find myself glancing over the glossy images several times a week and being wowed at the detail. Pick this up for a nice coffee table book that film and art fans alike will enjoy.

Why? Because the cream of the pop culture-influenced art scene - including Shepard Fairey, creator of the Obama 'Hope' poster - come together to celebrate cult movies with art that is surprising, beautiful and very, very cool. This lavishly produced book presents the best of the first 4 years of the show, with art inspired by such movies as The Big Lebowski, Edward Scissorhands, Blade Runner, Donnie Darko, A Clockwork Orange, Pulp Fiction and many more.

This book is a must-have for those that are just on the cusp of delving into the world of pop culture art. It exposes you to a myriad of artists and will leave you counting the days until the next Crazy 4 Cult exhibit.
