I'm probably extremely biased by using the excellent name finder book titled "Crossword Proper Name Finder". That book has been of great help over the past many years. Imagine my surprise when the very first clue I looked for was not in this book. Or the second, or the third. While it is a lovely book; it is no help to me. I may consign it to the used book store. But then, why should I pass it onto another unsuspecting puzzler? Maybe I'll use it shredded for the hamsters cage.0 of 0 people found the following review helpful. don't like format.By John GreilingerVery difficult to locate names..don't like format.....have better references. Needs to be rearranged for easier use.
