0 of 0 people found the following review helpful. I've tried so hard to like this bookBy shopper4This book was created, I suppose, using a regular crossword puzzle book and enlarging its print. In the process, most of the clues for the original puzzles are gone. Therefore, in the middle of the puzzle that has about 20 - 25 clues across and down, one of the clues will say something such as "see 100 across" and guess what? There is no 100 across. Further, as a big

crossword puzzle finisher, these crossword puzzle clues are the pits... they don't make sense. I've tried so hard to like this book, but it is absolutely terrible. It needs a reprint. And I need a refund.

It takes a good amount of patience and focus to finish one crossword puzzle, what about 41? Yup, this crossword puzzle book is composed of 41 sets that cover all known topics under the sun. The result is that you get physically relaxed while your brain is pumped up, too! This is a great combo reaction that you will soon get addicted too! Buy a copy now!
