A Good Series, Though Not Really for Relaxation By rmac1117 In this series, we have crosswords that feel more like PUZZLES rather than only Across and Down. This stuff is interesting but hella HARD. Created by a Who's Who of crossword constructors, they were selected from among hundreds, or even thousands (so says the intro) of submitted or existing puzzles based on their system of merits as per difficulty, originality, or theme. Again, interesting like following a road up the mountain, but a climb, nevertheless. All volumes in this set (a few inflatedly-priced, others a steal) are presented in easily-navigated spiral-bound format. On thick, smooth paper, with nice big squares, inviting easily-erasable pencil input resistant to tearing. Good thing, you'll need that eraser. 0 of 0 people found the following review helpful. Watch out! By West Coast Pete I was greatly frustrated to discover these are the exact same puzzles that appeared in a volume of Masterpiece Crosswords a couple decades ago. I've already solved them! So I mailed this book to my cousin. 0 of 0 people found the following review

helpful. and I'm very happy he sent this collection to me! By Richard Burt I'm the cousin of West Coast Pete, and I'm very happy he sent this collection to me! They are interesting puzzles which I would say are mostly of medium difficulty in a very easy- to- use format. Hopefully my higher rating will bring up the average of this fine crossword book!
