Wayne Robert Williams : Cryptic Variety Puzzles Volume 3 before purchasing it in order to gage whether or not it would be worth my time, and all praised Cryptic Variety Puzzles Volume 3:

4 of 4 people found the following review helpful. Okay puzzles, could be betterBy Doug HoylmanSince variety cryptics of any sort are hard to find, I'm glad to have this series; but it's not as interesting or challenging as other such puzzles I've done. Whereas constructors like Cox Rathvon or Roger Wolff have a new twist for every puzzle, Williams uses just a few formats repeated over and over, and the proofreading leaves something to be desired (worst goof: an 11x11 grid is given for what is really a 12x12 diagramless). Could be a good introduction to variety cryptics for those unused to them.

42 Brand-new Variety Cryptic Puzzles, including: Labyrinths, Jigsaws, Square Rings, Round Trips, and more.
