Just a personal preference as I find them more natural, less structured and my intuitive side is more in-tune with them.With that said, these are beautifully made! Big cards, easy to read, beautiful art and the photography of the crystals is fantastic. It really helps to learn the basic meanings of the crystals with the cards alone.If you are feeling the need for more information and looking more for a reading, the book that comes along with it is very nice. Not too big or filled with 'fluff' that doesn't make sense.I would not hesitate to purchase these again!2 of 2 people found the
