**From Routledge : Cultural Studies** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Cultural Studies:

9 of 13 people found the following review helpful. Compelling collection of cultural studies essays By A Customer Grossberg, Nelson, and Treichler have compiled a compelling collection of cultural studies essays. The selections in the book examine cultural studies from multiple angles, demonstrating the difficulty in identifying one encompassing definition of cultural studies. The differences do not create dissonance, however; rather they create a thought provoking collection that is worth reading.

Featuring new essays by such prominent cultural theorists as Tony Bennett, Homi Bhabha, Donna Haraway, bell hooks, Constance Penley, Janice Radway, Andrew Ross, and Cornel West, *Cultural Studies* offers numerous specific cultural analyses while simultaneously defining and debating the common body of assumptions, questions, and concerns that have helped create the field.

... "the publication of *Cultural Studies* is an event no serious (or curious) reader can afford to ignore. Make no mistake: in American intellectual life, the "undisciplines" of cultural studies will very likely be the single most controversial and contested terrain of the 1990s, and *Cultural Studies* the most capacious text in the fray." - VLS "If you plan to continue living in America, read this book." - VLS "It's here. It's big. It's the Next Thing... You've gotta have it." - VLS  
About the Author  
Lawrence Grossberg, Cary Nelson, and Paula Treichler are all well known for their extensive publications on modern culture.
