Worth Looking AtBy Owned and Loved by SchnauzersI bought this book as personal encouragement to continue my own style of dress while riding a bike.Many of the cyclists I see, have what would be called 'cycling clothes' on -- instead of just plain every-day clothing. Personal style gets lost in cookie-cutter clothing -- particularly the sort of neoprene short, loud jersey, and of course the safety helmet that many cyclists state-side wear.This book portrays the bicyclists as people who use the bike as a means to an end, and don't compromise personal style in the process.Very interesting - - very refreshing. Thoroughly enjoyed all the pictures.0 of 0 people found the following review helpful. goes nicely with NY Bike Style by PolcerBy Lizzy W.Cyclestyle, of the

An acclaimed photographer introduces the incredible variety of stylish cyclists pedaling through city streets in this stunningly illustrated book. No city boasts of a more fashion-forward population of bicyclists than London. Photographer Horst Friedrichs meets his subjects in their own milieu: zooming around the city's streets on two wheels. There he encounters a dazzling array of style and a surprising amount of substance. In tweeds (both Harris and hipster) and Saville Row suits, in hightops and stilettos, in flowing skirts and the skinniest jeans, wildly tattooed and impeccably manicured, sporting bowler hats and racing caps, London's cyclists are jubilantly exercising their fashion freedom. Whether they're leisurely filling their baskets from market to home or pedaling purposefully to an important meeting, experiencing the city as cycling tourists, or getting from place to place in the most economical way possible, Friedrichs' subjects share a love of the bicycle culture that is sweeping the streets of London and the rest of the world.
