**Dimension Publishing : Dark Cloud - Greatest Hits (Prima's Official Strategy Guide)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Dark Cloud - Greatest Hits (Prima's Official Strategy Guide):

This book is less useful than an online walkthroughBy Stefan BeyerThe guide offers few insights beyond what the game tells you or what's in the instruction manual. It's mostly filled with character bios (for the playable characters and the villagers). It gives no information on items and weapons beyond their name and the in-game fluff text. For the enemies, all it lists are their hit points, a photo, and the author's suggestion on defeating them - elemental weaknesses, attacks, and other useful info are omitted. I'd recommend not getting this book and just printing out select pages from an online walkthrough which has the info you need.1 of 1 people found the following review helpful.
