**Capcom : Darkstalkers: Official Complete Works** before purchasing it in order to gage whether or not it would be worth my time, and all praised Darkstalkers: Official Complete Works:

0 of 0 people found the following review helpful. The One to GetBy RattyIn my years as a Darkstalkers fan Ive acquired over half a dozen books based on/around the series, including just about every comic/manga compilation, artbook and game guide released in English. So I feel confident in saying if youre only looking to get one Darkstalkers book, this is it.This book is overflowing with development and behind-the-scenes sketches, most of which I had never seen before. As well as reproductions of familiar promotional images, for the most part printed bigger and better than I have seen previously. Just about every image is accompanied by brief commentary ranging from the silly to the insightful by the artist who created it. There are also 16 pages in the back of the book devoted to interviews with the

series developers. There's really no comparison when it comes to English language Darkstalkers art/coffee table books. Darkstalkers: Graphic File is a surprisingly anemic book which is full of move-lists (which you could get online free), microscopic pictures/screenshots and small/hard-to-read-character bio text, along with an overview of series games and merchandise in the back. Darkstalkers Tribute is literally just a fan art collection. Tribute has got some good art in it of course, most of which isn't reproduced in Complete Works, but you could get a good chunk, maybe most, of said contents for free by browsing deviantart. Bottom Line: This is the definitive English-language book on the series for Darkstalkers fans or fans of gaming art and history in general. 1 of 1 people found the following review helpful. Darkstalkers not just a game art book, but a inspirational artist collector book. By Howling Wolf I love to look at other peoples Art as it inspires my own artistic creativity. This book is full of beautiful art from the history of DARKSTALKER games. And I recommend anyone this book whether your just a fan of game art or looking for inspiration for your own character creations. This book takes you thru the evolution of the characters over the games and years. And makes you wish you had the games to play now if you never had them or just don't anymore. Only thing I wish more is that people had videos with books like this from start to finish of a character, in a tutorial view showing you how to make or remake that image, and show off their studio setup what equipment they use and recommend for what ever type of art your into. I think something like that with a book like this would make it 100 times better. I would love to see them actually making the characters. 0 of 0 people found the following review helpful. Five Stars By BOOTY MASTER great art book very high quality paper and images

It's the ultimate collection of Darkstalkers artwork and history! Darkstalkers: Official Complete Works collects the artwork of every Darkstalkers game, including key visuals, character illustrations, promotional artwork, rough concepts, and creator commentary. Also featured are multiple new interviews with the creators behind the series, plus all-new tribute pinups from your favorite Capcom artists!
