Good book, bad .By tobereadthis book is great. UNFORTUNATELY, it seems is totally unable to send a big book without

damages ! there is always something wrong: scratches on covers, corners crushed, etc, which is totally unacceptable for a real book-lover. Why the books are damaged ? simply because the books are gliding and hitting before being packed, therefore, the bigger they are, the more damaged they will be. The good point is still the low price... but is it really worth ?0 of 0 people found the following review helpful. 4 starsBy EWHA good artist book.

Dave Stevens was renowned for his work on The Rocketeer, the beloved comic that introduced the world to Cliff Secord and his incredible rocket pack. But Stevens was also one of the most sought-after and accomplished cover artists in comics. This collection will provide a comprehensive gallery of Dave's covers, with many of them scanned from the original art. Additionally, there will be cover roughs to accompany many of the covers. Finally, all of Dave's non-Rocketeer comic work will be presented, including incomplete and unpublished stories.
