It was exactly what I anticipated and the delivery was right on time thank you ! I would recommend this book to any fan of women and Rocketeer0 of 0 people found the following review helpful. Awesome art but...By Ken ClaytonThis book is awesome because of Dave's fantastic

talents.. It is particularly interesting to see the migration from sketch to final art...but...the way the book is bound hides some of the two page art in the center gutter making the viewer unable to see the entire artwork. I would have preferred just to have the blowups on a single page. Still a great book. 0 of 0 people found the following review helpful. Dave Stevens
By egytombI am so glad to have purchased this book by a master artist. It breaks my heart he is gone, especially knowing he would have continued to thrill us for many years to come. While not REALLY a sketch book per se, outside of a fun napkin his friends managed to keep, the art is wonderful. Recommended!

From the same people who brought you the Eisner award-winning Rocketeer Complete Adventures! For several years, Dave Stevens self-published four sketchbooks to sell at the San Diego Comic Con. These were very limited editions and are now highly sought-after collectibles. This volume collects the entire contents of those four sketchbooks, plus approximately 100 additional pieces that have never before been published. As with any sketchbook, the drawings in this volume are of varying stages of completion. They are a reminder that a piece of art is not full-born on the paper but rather is the product of hard work and sweat by the artist. These sketches, layouts, illustrations and portraits offer a unique behind-the-scenes glimpse of Dave Stevens' tremendous facility with pencil, pen and brush, and how special a talent he was.
