J. Douglas Arnold, James Yamada, Mark Elies : Digimon Cards! Collector's and Player's Guide before purchasing it in order to gauge whether or not it would be worth my time, and all praised Digimon Cards! Collector's and Player's Guide:

5 of 6 people found the following review helpful. Digimon TCG Book By A Customer For Digimon fan(atics) like me, this book is very helpful. Not so much for the "let's see if I got this card" kind of thing. It's more of a pictorial reference for me. Plus, if you just want to "have" the cards without spending too much money, they're all right here. A peek at the new cards is in the back, including Season 2 Digimon. In all honesty, this book is already outdated because all new sets are out. If you're looking for quick picture reference, this is the book for you.

Digimon Are The Champions! And You Will Be Too After Reading This Awesome Guide! Features Tournament Winning Tips: Our Expert game players teach you the best strategies and secrets to becoming a Digimon Digi-Battle

master! **Collector's Guide:** Use our handy visual guide to see what cards you're still missing, and check off the ones you have. **U.S. and Japanese:** Our collector's guide shows Digi-Battle starter and boosters, plus the Animation collector cards from both the U.S. and Japan. **Digi-Volve Evolution Guide:** Use our exclusive chart to see where your Digimon came from, or where he's going. **Toys:** We give you an exclusive look at all the cool Digimon toys you can find, including many Japanese import toys.
