Shame that they don't sell it anymore. 0 of 0 people found the following review helpful. Great game! By Brendon Bergman Although the game was used, it was almost 100% intact with only one minor piece missing that isn't really needed to begin with. Everything was in good condition and I still love playing this game after all these years. The only problem is that the game originally came with a pack of random card and I can't seem to find any more random packs so some cards will be forever missing. 0 of 0 people found the following review helpful. Dino Hunt! By CustomerFun, informative game for young and old. I just wish it wasn't out of print.

Dino Hunt is a family game for two or more players, age 8 and up. In Dino Hunt, you travel through time, visiting the different eras where the dinosaurs lived, to capture them for your modern-day zoo. But the other players have cards that can make your hunt harder - and watch out for that charging T. Rex! Simple to learn and easy to play, Dino Hunt carries the Dinosaur Society Seal of Approval - all dinosaur information and art in the game conforms to current scientific knowledge. Dino Hunt features over a hundred different dinosaurs. Each oversized card has full-color art

from some of the best dinosaur artists in the world. The back of each card gives the most up-to-the-minute scientific data the experts can provide.
