**Nippon Ichi Software : DISGAEArt!!! Disgaea Official Illustration Collection** before purchasing it in order to gage whether or not it would be worth my time, and all praised DISGAEArt!!! Disgaea Official Illustration Collection:

0 of 0 people found the following review helpful. A must-have for fans of Disgaea's art styleBy R. MillerIf you've played any Disgaea game before, you know the graphics are dated... but it's hard to mind when everything, from the characters to the environments, just ooze style. If you agree with me in that, then you need to get this book, dood.I like how the book is formatted. It goes in reverse chronological order, slowly leading you into the nostalgic days of the first game. After these chapters, there is a section for media related to the games, like the soundtracks and Japanese novels. In order to make sure that each picture is as big as can be, the reference of where the art came from (CD cover? postcard? ending scene?) is in an index at the back of the book. This lets you simply admire the art. Even though I love the Disgaea series, there was a surprising amount of artwork I had never seen before. In a few cases, that's simply

because the picture is new, but in other cases, it's because the picture is rare. Remember, the purpose of this book is to give you an easy means of viewing the art. Save for a few words from Takehito Harada (in English), there is hardly any reading in here. That's not a flaw, but something to keep in mind... zam. And what if you haven't played all the Disgaea games? Well, I haven't played the fourth one, to be honest, but I still loved the art taken from it. If you like Takehito Harada's style and have played at least one or two of the games, I'm sure you'll enjoy this book. The book itself has a firm cover, though it's not hardcover. The pages are also firm, so this really is a nice collector's item that should hold up well. Overall, if you like Disgaea's art, you'll like this book: simple as that. Boom!

Today, in fact. Disgaeart!!! compiles artwork from all four Disgaea games, its spinoffs (like Prinny: Can I Really Be a Hero), plus a few pieces for Makai since it's so easy to tie-in Zetta and his crazy friends. It's 190 pages of beautiful art that fans have been waiting for FOREVER! The first reason I purchased this is because I'm a huge fan and supporter of the series, while the second reason is because I have grown fond of the unique art-style that Disgaea has had and developed over the years. I believe its worth studying. This art book definitely delivers. When purchasing this, please remember that this is a ILLUSTRATION COMPILATION. This is not a casual, behind-the-scenes art-in-development art book, like how Capcom makes their [Insert Game Name]: Official Complete Works. Friendly Reminder: Please check what exactly it is you are buying before buying it.

Its the ultimate Disgaea art book, featuring the artwork of Takehito Harada and all four Disgaea games! This beautiful collection includes game covers, promotional art, book covers, soundtrack art, and tons more rare Disgaea pieces. No fan of this landmark RPG series should be without DISGAEArt!!!
