By Puck Since the "long Island Medium" came on TV I've picked up an interest on mediums, afterlife, etc. It's interesting to see the comparison of Concetta and Theresa. If you believe in what they say, it's a very positive and fantastic message. If you don't then you'll take this as a bunch of made up facts and will get nothing from the book. Approaching this as an objective point of view, I find it interesting the similar things both mediums say and how they work. Unless there is some sort of global collusion between mediums it does suggest they are experiencing similar things. All I can say is if you are open to the idea then this book can give you some insight. It's a QA format so it's not too long, and can be read quickly, too quickly I wished there was more meat to it. But nonetheless fun. I hope, sincerely hope what she says is true or close to true or just some semblance of true, if it is then all's good. 1 of 1 people found the following review helpful. ... to thank Concetta Bertoldi for writing an informative book like this. This book was funny. By Cynthia I want to thank Concetta Bertoldi for writing an informative book like this. This book was funny, informative and written well. I'm a Clairscientist also, but one that has been struggling to understand the mediumship part. I was presented with the thought to look at your books when I noticed you endorsed another medium's book that I had read for fun. I'm super glad I did. I love the humor. I also learned some things I've been struggling to understand. Thank you for sharing your thoughts, feelings and information. I have found it hard to find out some of the information you wrote about amongst medium groups. It seems a lot of mediums don't want to teach. Thank you - Blessings 1 of 1 people found the following review helpful. answers at your fingertips! By Mollimizz I found out you have a hard time putting it down! It's so easy to read, a real page turner! And that's saying a lot for a non-fiction book. No wonder it's a best seller!

Medium Concetta Bertoldi answers all your questions about life after life. . . from the irreverent: (If the dead are always with us, do they have a XXX view of my bedroom?). . . to the poignant: (Will my deceased father be with me when I walk down the aisle on my wedding day?). . . to the heartfelt: (When loved ones leave this life too early or under tragic circumstances, are they eternally heartbroken or can they find peace in heaven?) Concetta Bertoldi has been communicating with the "Other Side" since childhood. In *Do Dead People Watch You Shower?*, the first-ever book of its kind, she exposes the naked truth about the fate and happiness of our late loved ones with no-holds-barred honesty and delightfully wry humor, answering questions that range from the practical to the outrageous. In addition she shares with us her own intimate secrets, revealing with refreshing candor how her miraculous gift has affected her life, her marriage, her friendships, and her career, as well as the myriad ways she has used it to help others.

From Publishers Weekly Whether readers believe what Bertoldi has to say is a matter of choice, but the charm of this "average Jersey girl who talks to the dead" goes a long way toward making this one of the more approachable titles in the recent wave of medium-authored books. It also has a format with wide appeal, more or less cribbed from the bestselling *Why Do Men Have Nipples?* Instead of personal health questions, Bertoldi answers queries like "Do the dead go to ball games?" (Yes) and "How meaningful are coincidences in our lives?" (Very). The book also has a dishy element, delving into the medium's personal life (her husband's a skeptic) and a number of celebrity encounters. Though generally fun reading throughout, questions of God, heaven and other spiritual matters are met with vague language; she's similarly uninformative regarding practical matters like finding happiness or contacting the seemingly omnipresent dead. Copyright Reed Business Information, a division of Reed Elsevier Inc. All rights reserved. With her fun loving and sparkling personality, it is no wonder the spirit world wants to speak to her. (James Van Praagh, #1 New York Times bestselling author of *TALKING TO HEAVEN*) I most definitely believe Concetta Bertoldi is definitely not your run-of-the-mill medium, definitely not. (Billy Baldwin) *GHOSTS JUST WANT TO HAVE FUN*: the dead do walk among us, watch us make love and sometimes even try to get in on the action but they won't follow us into bars. (PAGE SIX, New York Post) The charm of this average Jersey girl who talks to the dead goes a long way toward making this one of the more approachable titles in the recent wave of medium-authored books. (Publishers Weekly) Bertoldi swears she has been communicating with the dead since she was a little girl. Now she reveals everything you've ever wanted to know about what it's like. (Daily News) Sweet, funny, and reassuring. . . What makes Bertoldi stand out are her personality and positive energy, which shines throughout. An engaging, life-affirming read. . . (Library Journal) I have never read a more straightforward book about The Other Side. Concetta instills a sense that there is more living after death. heart-warming. (Abigail Carter, author of *The Alchemy of Loss: A Young Widow's Transformation*) Believers will delight in knowing the answers any way you look at it, it's interesting reading for anyone curious about the afterlife. (Chicago Sun Times: The Book Room) About the Author Concetta Bertoldi is a full-time medium with a two-year waiting list.
