Alicia Ashby : Legend of Zelda: Skyward Sword (Prima Official Game Guides) before purchasing it in order to gage whether or not it would be worth my time, and all praised Legend of Zelda: Skyward Sword (Prima Official Game Guides):

0 of 0 people found the following review helpful. No real value here
By Pallas
Not worth it. One of the worst of the walkthrough guides. Very little useful and really you can find much better guides online basically for free. I had been hoping for nice maps for the investment, but the ones included are vague and incomplete.
0 of 0 people found the following review helpful. the book itself is beautiful! The layout of this book
By Samandhi
The information seems to be accurate, so points were given. Plus, the book itself is beautiful! The layout of this book, however is the worst. It is almost as bad as the Gamecube version of Windwaker. I am glad that there is a "Revised" version in the Prima Box set, and hope that it fixes all the issues that Prima (indirectly) admits their original Author made.

the following review helpful. Great Helper!By Jennifer ProvinzanoI am not one who relies squarely on a game guide to get me through to the end. I use it to reference items and things I may have missed or want to find secrets and such. This book has so far helped me do that, and so I am very happy to own it. I enjoy reading through guides for knowledge, and will continue to do so with this one.

Legend of Zelda: Skyward Sword (Prima Official Game Guides)
