When we finished the final battle and hit the end of the game, we were about 38% or so of items found.This is laid out well, and very well detailed. It's easy to find what you're looking for and what area you're in. Great instructions and illustrations showing where things precisely are.Got it for a third off the list price, so it was a good deal. Well worth it.7 of 7 people found the following

review helpful. High quality print job--PlusBy J. J. BurkeOn all levels I find this guide great. 432 pages. A parent can use it to see hidden areas and challenge their kids to find them and some of the more valuable bricks etc.The book is very colorful and well illustrated on slick paper. Explanations are very clear.0 of 0 people found the following review helpful.
