been a gamer since 1985 when I played Zork I on a Compaq portable. I enjoy the Lego games for Wii primarily because you will never see the "GAME OVER" notification. When your Lego character "dies," it just puts itself back together again. Loads of fun!1 of 1 people found the following review helpful. Fun Game, Fun guideBy Barry StulbergerI had to buy this version even tho I am playing the 3DS version. They have a code to get a Free guide for my system. Very fun game to play. If you liked Both Avengers Movies, then this game is for you. Include the LOKI movie and the ULTRON movie. Lots of laughs from Lego games, but it's even better with actual sound clips from the movie.0 of 0 people found the following review helpful. Avengers assemble up!!By Deadpool 22I loved reading every aspect of it. It is so abundantly clear that I recommend it to anyone who has this game! As Stan lee would say, "excelsior!!!"
