Jann S. Wenner, John Lennon : Lennon Remembers before purchasing it in order to gage whether or not it would be worth my time, and all praised Lennon Remembers:

0 of 0 people found the following review helpful. Lennon the anti-mythmaker making his own myths.By CustomerCompare his comments to the book Playboy published, also a long interview session.0 of 0 people found the

following review helpful. FascinatingBy E. HagendoornRecorded right at the start of Lennon's solo career and the end of the Beatles these interview offer a fascinating picture of John Lennon. Of course he says some things she may have regretted later but it's his candidness that draws you in as well. Ans it's not all bitter. Jann Wenner could've been more critical and dig deeper, especially when Lennon attacks McCartney or Harrison but this has a lot of great moments.0 of 0 people found the following review helpful. Excellent account of Lennon's reaction to the breakupBy Christopher RendineExcellent account of Lennon's reaction to the breakup. Interviews conducted immediately following the dissolution of The Beatles. A must-read for Beatle fans.

Initially published on the twentieth anniversary of his death, this candid book reveals new information on the breakup of the Beatles, fellow musicians such as Bob Dylan and the Rolling Stones, Lennons attitudes towards revolution and drugs, and his relationship with Yoko Ono. Featuring new introductions by Ono and Wenner, and containing substantial material never before seen in print, Lennon Remembers presents a compelling portrait of a complex musical genius at the height of his career. Sometimes anguished and angry, often tender and poignant, these interviews are indispensable to understanding who John Lennon was and why his legacy continues to resonate today.

As riveting a document as it was three decades ago ... there is still nothing to rival this interview in the annals of rock journalismit has lost none of its power to shock.Anthony DeCurtis, Rolling StoneArguably the most legendary interview ever conducted with a major celebrity.Library JournalA must-have for anyone who loves and remembers Lennon.San Antonio ExpressThis is the only voice that will ever articulate what it was really, really like to be in the Beatles when it all went wrongcaught in a moment, rasping, raving, and flaming mad.UncutFinds Lennon in fine form, still bitter about the breakup of the Beatles, full of optimism about his future solo projects, opinionated, emotional and full of life. It captures his mercurial character more exactly than any other book on the Beatles Ive read.Independent on SundayAbout the AuthorJann S. Wenner cofounded Rolling Stone magazine in 1967. Wenner is the publisher of Rolling Stone and owner of Mens Journal. He has conducted and written many of Rolling Stones most iconic interviews with subjects ranging from Barack Obama to U2s Bono, which was nominated for a National Magazine award. In 2010, he received the Norman Mailer Prize for his lifetime achievement in magazine publishing. He lives in New York City.Yoko Ono is a peace activist, musician, artist, writer, and filmmaker. She is especially known for her performance art and her involvement with the Fluxus group. She has had retrospectives of her work at both the Whitney Museum and Museum of Modern Art in New York, as well as in Germany and Spain. Ono was married to John Lennon of the Beatles from 1969 until his death in 1980.
