PepoonGreat (but somewhat dated) thumb-nail biographies of the people who were genuine "movie stars" when I was "alive". Johnny Depp and Brad Pitt are about the only two I recognize today. Great read if you are into the movie biz and the stories of the people you often see on the free (antenna) cable channels. I would recommend it for those over 60 and went to the movies. Definitely a "nostalgia" trigger and most enjoyable. I wish Mr. Maltin and one of his young associates would come up with an updated version, but maybe there just are too many one hit wonders today to fill up the book.0 of 0 people found the following review helpful.
