Incredible images in a beautifully put together book. There is something so otherworldly about Bassman's photos - it's as though your looking at a dream sequence. I found it easy to get lost in her work.All images are in black in white - and take up the entire page. Truly stunning. I'm thinking about buying a second copy so I can frame some of the images.0 of 0 people found the following review helpful. INCREDIBLE!By RichterIf you enjoy fashion and have a love of photography, this is a must-have book. Fabulous black and whites throughout show Bassman's keen touch.

With more than 140 of her best images reproduced in stunning tritone, including many never published before and others not seen since they appeared in the pages of the legendary Harper's Bazaar of the 1950s, Lillian Bassman: Women offers a retrospective view of an extraordinary career in photography.
