Mark Zegarelli : LSAT Logic Games For Dummies before purchasing it in order to gage whether or not it would be worth my time, and all praised LSAT Logic Games For Dummies:

9 of 9 people found the following review helpful. Good set of tools to haveBy frawcm26The book gives very logical and clear explanations. The author presents the material in an easy-to-follow format. Be aware that the book has several typos, but these are fairly easy to see. There is one error worth mentioning:Page 155, Solution to Game 3(MISTAKE 1)First H is (correctly) attached to B; suddenly it's (incorrectly) attached to P.(MISTAKE 2)On the continuation of explaining this game on page 157, the answer provided says that the possibilities are:FBPSHDGBFDPSHGBDFPSHGDBFPSHGThe problem clearly states that F always comes before B ("He goes to the bookstore sometime after the florist..."), so this is obviously incorrect. The correct answer is:FBPSHDGFBDFPSHGFBPSHGDFBPSHGOther than that, the book is actually very well-written. It breaks logic games down for you. Other books I've seen just give examples and explanations, but seem to not really give you a set

of tools for solving the games. This book will give you a method to solve every problem. 1 of 1 people found the following review helpful. I found this book to be very helpful. In ...By CustomerI found this book to be very helpful. In many ways, I found the problems in this book to be harder than the problems encountered on the actual LSAT. 5 of 5 people found the following review helpful. Not the best option for the priceBy freecountry1391I bought this book because I am awful at logic games and wanted a way to improve on them without paying for a class. I found that the book is inconsistent in some ways, such as how to symbolize facts about each game. Further, the author does not sufficiently explain how he arrives at his conclusions and makes the deductions that he does. Either my logical skills are really subpar or he does not explain thoroughly enough. I ended up buying the ExamKrackers Analytical Reasoning book and have been much more satisfied. I would highly recommend that book instead.

Improve your score on the Analytical Reasoning portion of the LSAT If you're like most test-takers, you find the infamous Analytical Reasoning or "Logic Games" section of the LSAT to be the most elusive and troublesome. Now there's help! LSAT Logic Games For Dummies takes the puzzlement out of the Analytical Reasoning section of the exam and shows you that it's not so problematic after all! This easy-to-follow guide examines the types of logic puzzles presented on the LSAT and offers step-by-step instructions for how best to correctly identify and solve each problem within the allocated time. Coverage of all six question types Detailed strategies for quickly and correctly recognizing and solving each question type Complete with loads of practice problems Whether you're preparing to take the LSAT for the first time or looking to improve a previous score, LSAT Logic Games For Dummies is the logical study companion for anyone looking to score high on the LSAT!
