I'm not sorry to have read it, but again, it's not useful if you want to play this game better. 18 of 20 people found the following review helpful. Madden 2000: Superbowl or Bust? By Maddenmaniac I was really looking forward to getting this book only to be disappointed. The strategic information included was way too general in nature and the player ratings incomplete (where were the ratings for the superbowl, all-time and pro-bowl teams?) OK, all the codes are included and that's nice, but this book was a little too light on strategy to suit my tastes. For rookies it may be a good source of general information. Anyone looking for some

indepth strategies should look elsewhere.6 of 14 people found the following review helpful. a great game with a great bookBy HankIt Tells you every thing you need to know and it is simple as that
