Mark Cohen : Madden NFL 2001: Prima's Official Strategy Guide before purchasing it in order to gauge whether or not it would be worth my time, and all praised Madden NFL 2001: Prima's Official Strategy Guide:

I returned it immediately By Ray Salemi I never would have bought this if I had seen it in the store. It does nothing well. It doesn't even explain how to read the play diagrams when you call plays. It has no opinion on controllers or how to use them. The advice for running a franchise or creating a gameplan consists of one vanilla paragraph. Sad to see it associated with such a great game. 4 of 5 people found the following review helpful. Sorely Disappointed By Sackrison Was really disappointed with this. The embedded graphics were lousy and the book just didn't give any strategies or help. So much for Prima's Guides
