By InfoHound
I really like the idea of maps and intend to spend a good deal of time exploring them, but why would I buy this book?
With a simple Google search for Minecraft Map Downloads I find pages of map listings like the ones in this book and many descriptions are more detailed than what the book gives like the sites below with Lots of maps to choose from all categorized for easy searching
<http://www.minecraftmaps.com/>
<http://www.minecraftdl.com/category/minecraft-maps/>
<http://www.minecraftworldmap.com/browse>
The first 3 listings of my search all for free, all with information on hand and all with the download links right there.
This book as it is, is a very small part of a general yellow pages listings of maps in general it serves no discernible purpose. Definitely NOT worth paying for!
The author often has better material, but this is a no score
