LOVE this book great pictureBy CustomerLOVE.LOVE this book great picture!10 of 12 people found the following review helpful. truly an originalBy CD in DCi'm not sure which is more shocking, the half a dozen photos of her topless or the two of her exhusband Richard Golub but it's very large and chock full of one of the legendary beauties of all time. It's really impossible to take a bad picture of her and his book proves that. There are nice "as told to"s Vogue's Hamish Bowles and designer DVF that are some of the most revealing portions in the book. There are relatively few photos of her late twin sister Berry who died in 9/11 and nothing is said about her but as Marisa recently said "there are no words." But as for the pictures, they're quite revealing, who knew Diana Vreeland was married? She could have stayed out of the spotlight but i'm glad she didn't.0 of 0 people found the following review helpful. A Family KeepsakeBy Marianne LatherA beautiful book!
