**Mary Emmerling, Mary E. Emmerling : Mary Emmerling's American Country Gardens** before purchasing it in order to gage whether or not it would be worth my time, and all praised Mary Emmerling's American Country Gardens:

Mini-version, major rip-off By Lucy PanHeadOuch! \$15.95 new for this? This is NOT one of Ms. Emmerling's coffee table books. This microscopic booklet doesn't even have numbered pages, perhaps to soften the blow of spending so much for it. It's barely 7 inches square, comes with a cardboard sleeve, and resembles those Hallmark gift booklets. There are some predictable quotes from Emerson, Pope and other copyright-free folks, and then the photos...well, it has the sort of photos we've come to expect in these "name brand" books produced by stylists. A photo of someone's trowel and flower pot. A close-up of a tulip, a close-up of a hibiscus, a close-up of a field of tulips, yet another shot of more tulips, a vase full of flowers....come on already!!! Nothing to inspire, nothing original, nothing you haven't seen a thousand times if you have a few garden or home magazine subscriptions. Sorry, but M.E. dropped the ball on this one. This book was put together to make a quick buck, not to entertain a reader.

Alive with the pleasures of the country garden, Mary Emmerling's newest treat for gift-givers is a wonderful bouquet of pictures and verse. 100 full-color photographs.
