Jon Edwards : Mastering Mates 1: 1,111 One-Move Mates before purchasing it in order to gage whether or not it would be worth my time, and all praised Mastering Mates 1: 1,111 One-Move Mates:

0 of 0 people found the following review helpful. It became easy to complete 12 problems a day in under 5 ...By CustomerIt has helped me to recognize simple checkmate patterns. It became easy to complete 12 problems a day in under 5 minutes, so I completed the book in only a few months of study. on Page 153 the heading says "White to Move" but it is really "Black to Move".0 of 1 people found the following review helpful. Five StarsBy John

Bouquetvery pleased4 of 6 people found the following review helpful. Great book. I really enjoyed itBy moth2Great book. I really enjoyed it. Now i am reading vol.2 congratulations to the author. You want to master checkmate? Then buy both books and you wont regret it.

Train Your Brain to Recognize Checkmates!This first book in the Mastering Mate series presents a challenge for players relatively new to chess and for readers seeking a novel and interesting set of puzzles. Books on chess tactics can overwhelm beginners and young learners. These relatively simple, carefully chosen exercises serve to illustrate the wide variety of examples of checkmate, as well as showing off the harmonious cooperation of chess pieces delivering the final blow. You will certainly learn what checkmate is and how to deliver it. And you will learn how chess pieces can coordinate their influence on the board. Every one of the 1,111 positions in this book is from an actual game. Each position has a single, unique solution. And all of the solutions have been carefully checked. Most of these problems are relatively easy, but not all of them! Indeed, many involve solutions are not completely obvious. In fact, some of the masters who played these games actually missed the mates! With Mastering Mates 1, you will fine tune your checkmate radar, with greater success and enjoyment of the royal game sure to follow!

About the AuthorJon Edwards won the 10th United States Correspondence Chess Championship in 1997 and the 8th North American Invitational Correspondence Chess Championship in 1999. He is the author of the popular eBook series Chess Is Fun, as well as Sacking the Citadel: The History, Theory and Practice of the Classic Bishop Sacrifice.
