By Amber This is such a beautiful, fun game. The booklet inside tells about each bird. It is a great addition to our homeschool. 3 of 3 people found the following review helpful. Many of the same images used on Bird Bingo. ... By zara Many of the same images used on Bird Bingo. Played once. Probably won't play again. Cards are also too large for small space layout.

Match the male and female pairs of 25 species of birds from around the world in this beautifully illustrated memory game. To play, simply place the cards face down and see if you can remember where the matching bird is located. Collect more pairs than your opponent to win! With all kinds of species from the barn owl to the blue tit and the ostrich to the macaw this fun and educational game is an ideal gift that will appeal to bird lovers everywhere.
