"WE VALUE EVERY BURST OF APPLAUSE, EVERY FAN LETTER, EVERY HIT RECORD."By Stuart JeffersonThe five "star" rating is for the nostalgia this book brings back. The photos and the text are really nothing new to Beatles fans. But this is a facsimile of the original book Tony Burrows put out way back in 1963. As something from that era it's worth a look-see if you're a Beatles fan/collector. An original copy of this book (if you could find one) would be prohibitively expensive.The only reason I purchased

this book is because of the memories it brings back of that whole period before The Beatles really became huge everywhere. If you were lucky enough to be around when The Beatles first appeared, this nice little book will bring some of that time back. A few of the (all bw) photos are interesting, and some of the text is nicely time-locked in that innocent way from the era--"Back Home with The Beatles in their Booming Beatropolis", as one chapter heading states. Included are Beatle biographies, "Beatle Background" (with "General Beatletistics"), "Beatles Beside the Seashore", "Chart-Toppers At the Moment of Truth", "A London Day In The Life of the Beatles", and so on. And as a time machine in words and pictures, this slim reprint is pretty cool if you remember back then, before the band became huge. I was lucky enough to see and hear (sort of, what with all the screaming) The Beatles in my home town at the now long gone stadium. The tickets were something like \$3-\$4 dollars, and my Mom gave me the money. You couldn't hear much of the music except every now and then, but what an experience--all those screaming, crying girls. I remember that most of all. Even as a young person I never understood why all the hysterics--but I guess that's just me. This is worthwhile for a look back at how it all started. 0 of 0 people found the following review helpful. Two Stars By Don Diego Vegapages seem to be dull copies from the original book. 1 of 1 people found the following review helpful. The 60s started here! By THKA wonderful reprint of the 1963 edition by Tony Barrow, Dezo Hoffmann and Peter Kaye. Includes a great discography that contains 4 singles, 3 EPs and one LP. GREAT! Grab your copy now.

A uniquely firsthand introduction to the Beatles as they were in 1963, Meet the Beatles includes features on the bands background, their life in Liverpool, and a photographic record of a day in the life of the Beatles. It is a personal introduction to four young men in the process of becoming the worlds biggest band. Originally selling more than a million copies, this special collectors edition, which retains the original cover art, is filled with rare photographs, many of which have not been reproduced elsewhere. It is a classic piece of Beatles memorabilia that relives the days of Beatlemania.

About the Author Tony Barrow became the pop reviewer of the Liverpool Echo as a teenager in 1954. By 1961 he was a freelance press consultant for the Beatles, becoming their full-time press manager from 1963 to 1968. After this he was a publicist for Gladys Knight and the Jackson Five, among others. He is the author of John, Paul, George, Ringo and Me and The Making of the Beatles' Magical Mystery Tour.
