**Michael Teitelbaum : Meet the Pokemon (DK Reader - Level 2 (Quality))** before purchasing it in order to gage whether or not it would be worth my time, and all praised Meet the Pokemon (DK Reader - Level 2 (Quality)):

0 of 0 people found the following review helpful. Perfect into to Pokemon - for children and, in this case, grandparents. I needed that refresher course.By KcornMy kids were into Pokemon but it's been awhile...who knew they'd still be so popular when the grandkids came along? Not me. Suddenly I needed a refresher course. I couldn't remember the different trainers, the types of Pokemon, how they evolved, etc.This book is a great intro. It's easy

enough for young readers to handle and also simple for a parent or grandparent , etc to read to a child. The 4 year old loves this book. It's the favorite Pokemon book so far and we have quite a few.I also made sure to read it well before the kids arrived so I could talk about some of the various Pokemon even before we opened the book.They were amazed.,0 of 0 people found the following review helpful. Wonderful book for young readers who like PokemonBy wyrtwizardPokemon are still popular today, many years after they were first introduced. This book doesn't have a particular storyline, but it does describe and illustrate many of the main characters and features of the Pokemon universe. My six-year old son loves it, and he can mostly read it himself.Not a classic story, but recommended as something that will motivate young Pokemon fans to pick up a book and read.0 of 0 people found the following review helpful. These books are great for him to get him motivated to read moreBy Christina M.My 1st grader loves Pokemon. These books are great for him to get him motivated to read more. He like the story in this one better than some of the others we have.

This 32-page Reader serves as a basic introduction to the major types of Pokmon, including examples of each type and details on how they Evolve. For this age group, getting readers comfortable with the material is a great start; the foundation provided by this content will help them grow in their knowledge of Pokmon characters. This book is intended to provide a general introduction to major aspects of the Pokmon universe, aimed at early readers and emerging fans. (c) 2008 Pokmon.
