Great Book on *Men's* Style With Good Range Of Ages RacesBy Alex HWonderful and inspirational book that features men from all walks of life.What I really like about Guiseppe Santamaria's book MEN IN THIS TOWN: LONDON, TOKYO, SYDNEY, MILAN AND NEW YORK is that he photographs men of different colors and ages, and with different styles of dress, so you aren't just looking at guys

wearing 3-piece suits. There are several spotlight interviews with a few guys in the book, but for the most part this book has limited text descriptions of the outfits. The pages are printed on thick, but matte pages and it comes with its own bookmark. 0 of 0 people found the following review helpful. Lovely book
By Customer I got this gift for my fashion-conscious cousin at a gift swap. Not only did he love it, but everyone thought it was really cool, and it was passed around the whole night. 0 of 0 people found the following review helpful. Five Stars

Giuseppe seeks out the everyday man in each city whose dress sense speaks volumes about who they are. Alongside striking images captured from the streets, Giuseppe has chosen a handful of men from each city with a particular, distinct style and photographed them in their various attire, as well as profiled them about their particular approach to fashion and their sense of the menswear scene today.

Men In This Town Highlights Male Beauty. A new photo book provides over 250 pages of delicious eye candy from Australia to Italy. Giuseppe Santamaria's new book, *Men In This Town: London, Tokyo, Sydney, Milan, New York*, is 256 pages of the world's best-dressed men, strutting in the world's most glamorous cities. Santamaria's pictures show what styles proliferate where: e.g., tailored suits in London, rock style in New York, fitted jeans in Sydney. The fashionistas show that male beauty and fashion don't have to take a back seat to the ladies; we can all strut like peacocks. *OUT Traveler* [one of] the best of the new glossy fashion book hitting shelves this season
