**Fraser Simpson : Mensa 365 Brain Puzzlers Page-A-Day Calendar 2017** before purchasing it in order to gage whether or not it would be worth my time, and all praised Mensa 365 Brain Puzzlers Page-A-Day Calendar 2017:

2 of 2 people found the following review helpful. Mensa Calendar the best...By LFPI try to buy this particular calendar very year for my husband as one of his Christmas gifts.He really enjoys this one best of any other brain teaser/puzzle calendar.Every once in a while they are sold out and I've had to try others and he usually is a bit disappointedand continues to rave that the Mensa one is the best!0 of 0 people found the following review helpful. Great gift for the puzzle-solver on your list.By C. JohnstonThese puzzlers are the perfect gift for the person who doesn't want to waste a lot of time playing games, but enjoys a great unique puzzle each day. There is a good variety of math, language, strategy and logic puzzles. Some are quite challenging, and occasionally there is a hint to send you in the right direction. The answers are provided with great explanations of how to approach the puzzles if you really get stuck. I gave 3 of these as gifts and finally bought one for myself!2 of 2 people found the following review helpful. A Quick, Fun Daily ChallengeBy AlisonThis is my second time purchasing this calendar. I bought it last year as a Christmas gift for my dad, and had to buy another this year at his request. He is not an easy person to shop for, but absolutely raves about these puzzles. He enjoys crosswords, sudoku, and most any logic puzzle. This calendar provides a great mix of puzzles and problems, which are quick enough to do each day, but still challenging. I would also like to mention that I've purchased many page a day calendars in the past, and that this calendar has an exceptionally strong construction. I am not at all concerned that it will come loose from its backing.

Welcome to boot camp for the brain. The perennially popular calendar that delivers a year of puzzles that are both

addictive and tough enough to be sanctioned by Mensa. 365 Brain Puzzlers works your neurons to the max each day an entertaining logic conundrum, word puzzle, spatial challenge, or math riddle designed to test the brainiacs mettle: One clock loses two minutes every hour, and another clock gains two minutes every hour. If both clocks currently show 12:00, in how many hours will both clocks next show identical times? \* Puzzle got you stumped? Dont worry, answers and explanations are on the reverse of each page. \*180 hours
