I knew it was wishful thinking although it did help with the Monster hunter missions to obtain the items.. Gear Rex Mucus, Rathalos Wing, Gear REx Concentrate and Gear Rex Super Concentrate. Which i have know.. It did also help me obtain 100% on all weapons in the game. The tactic it layed out for tank battles are terrible. Because killing won't net you an S rank. So they should've at least said to start S

ranking missions early.. Which I've done and reaped the benefits.. Bottomline is if you ask me to rate this guide i would give it a 3.5 out of 5.0 of 0 people found the following review helpful. Should have more rugged binding for 15 bucksBy Yairo MartisHas a neat little format, but the spiral binding will become a mess sooner or later, and the content inside is still information overload.The most important things are the TIP or CAUTION sidebars in the Ops walkthroughs.To be honest, I bought this guide purely to know how to ***SPOILER*** gather the parts needed build your own Metal Gear ***SPOILER***, and so far it has fulfilled its purpose.0 of 0 people found the following review helpful. I wish it was just bigger lolBy koolnerdzThe guide is great, I wish it was on normal 8x11 paper and not in this "fun-size" format which makes me have to put the book in my face to read all the small print. I'm still glad I have it though, and at the price I'd get it again if I lost mine.
