Steven Estep : Mighty Optical Illusions: More Than 200 Images to Fascinate, Confuse, Intrigue, and Amaze
before purchasing it in order to gauge whether or not it would be worth my time, and all praised Mighty Optical Illusions: More Than 200 Images to Fascinate, Confuse, Intrigue, and Amaze:

3 of 3 people found the following review helpful. Some of the latest advances in Optical Illusions By Jerry Guild This new Book of Optical Illusions was recently published in 1915 by Skyhorse Publishing .I have been interested in Optical Illusions for many, many years and have posted Reviews on quite a few books of them over the years. I have done Reviews of great books by Al Seckel, Sarcone Weber, M.C. Escher and others, just to mention a few. However, the amount of these books published recently has become few in number. As a matter of fact, I thought they had run their course. I mentioned in a Review I posted today on a book "Optical Illusions" by Al Seckel, that there was a huge amount of information and images now to be found on the Net and YouTube, that might be taking over from books. What a surprise when I came across this book by Steven Estep. It is an excellent, large size book, beautifully constructed, with excellent paper, printing, color illustrations, and more important, there are a lot of fresh illusions. As with any book on the subject, there is always repeats of classic illusions, and illusions based on past images, but there are also lots of new ones. I had not come across this author before, nor any of the illusionists whose images are

included, such as; Andreas Aronson, Frankymata Tedjosantoso, Jennifer Towley, Josh Stacy, Leon Kerr, Mark Grenier, Mark Talbot, Richard Talbot, Tabi Ferguson terence, and of course the author, Steven Estep. In this book of 204 pages, there are more than 200 photographs, drawings, sculptures, and paintings that may make your head squint your eyes and doubt yourself. Items that deceive the eye by appearing to be other than they really are. Chalk drawings, billboards, body painting, color adaptations, murals, snapshots, stereographs, sketches and designs by some of the most promising and well known illusionists. The author is the manager over at M Oillusions and there is lots more by him on M Oillusions.com.

A collection of some of the craziest, mind-bending, and entertaining images on the web. Women with four arms, children who walk on water, pigeons the size of ten-story buildings though we know these things aren't possible in the real world, a quick glimpse at the right photograph may temporarily convince you otherwise. Steven Estep, one of the brains behind the popular visual illusion website, MOillusions.com, understands how these eye tricks work better than most. In *Mighty Optical Illusions*, Estep presents more than two hundred photographs, drawings, sculptures, and paintings that may make you scratch your head, squint your eyes, and doubt yourself. These images are known as optical illusions—items that deceive the eye by appearing to be other than they really are. The illusions in this collection include 3-D chalk drawings, billboards, body paintings, color adaptations, murals, sculptures, stereograms, sketches, and designs by some of the most progressive and well-known illusionists in the industry, including: Andreas Aronson, Frankynata Tedjosantoso, Jennifer Townley, Josh Stacy, Leon Keer, Mark Grenier, Mark Talbot, Richard Contreras, Tabi Ferguson, Terence Rosoman, and more! Optical illusions, whether they are scary, dizzying, confusing, or tricky, can provide hours of fun and entertainment for the whole family.

About the Author Steven Estep is an entrepreneur who has owned, operated, and worked with some of the biggest websites on the Internet. He is the manager and writer for MOillusions.com. His websites have been featured in numerous print publications across the globe. Primarily an Internet entrepreneur, Steven is also an aspiring filmmaker with a short film currently in preproduction. He resides in Beckley, West Virginia, with his girlfriend of over three years, his pet sun conure, Pumpkin, and his cat, Jackson.
