Sandy Silverthorne, John Warner : Mind-Boggling One-Minute Mysteries and Brain Teasers before purchasing it in order to gauge whether or not it would be worth my time, and all praised Mind-Boggling One-Minute Mysteries and Brain Teasers:

0 of 0 people found the following review helpful. Some Good Mysteries. By Edward J. Vasicek I use these as ice breakers for our church youth group. Some of them are more reasonable than others, but there are plenty of good

mysteries that get 'em thinking. I would definitely preview them and look for the good ones and mark them. About half the mysteries border on ridiculous solutions.4 of 4 people found the following review helpful. lots of funBy kellyMy kids have loved this book. You have to know the clues and have them ask yes or no questions, etc. because they cannot figure out the answer just by reading the teaser. It needs the extra info. you would give as the one being questioned. But it gets them thinking outside the box. Great to break up the day of learning.0 of 0 people found the following review helpful. There weren't any hints as to the solution of each ...By S. ColebankThere weren't any hints as to the solution of each mystery, not even in the clues. There were still dozens of possible solutions at hand after reading each "mystery" and its clues (which did not tell the reader anything new), which for me means the mystery has not been successfully rendered. I will be returning this book.

More than 100,000 copies of One-Minute Mysteries and Brain Teasers and Return of the One-Minute Mysteries and Brain Teasers have been sold (combined), and now Sandy Silverthorne and John Warner offer an all-new collection of family-friendly lateral thinking puzzles.Each page includes an unusual scenario that ends with a question for readers to answer as well as a delightful cartoon that depicts a laughably incorrect assumption. To find the one satisfying answer for each puzzle, readers must throw out all preconceived notions and be open-minded, flexible, and creative. Increasingly revealing clues for each puzzle are included in the back of the book, as are the solutions.These riddles are challenging enough for adults yet appropriate for detectives of all ages. Individual readers, families, and groups can enjoy hours of fun solving them and learning to think outside the box.

About the AuthorSandy Silverthorne has been writing and illustrating books since 1988 and has over 500,000 copies in print.
