**From Docter Pete : The Art of Inside Out** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Art of Inside Out:

0 of 0 people found the following review helpful. Love the art of Inside Out  
By Customer Amy  
This is a pretty fantastic book. It's an art book about the movie Inside Out made by Pixar/Disney. It's a great book and it has so much detail about how they created each character and the settings. The process they had to go through to create such a complex movie is nothing short of amazing. I love Pixar movies because of how artistic they are and the detail they put into their craft is phenomenal. Their attention to how everything should look, from the shapes of their eyes to what they should wear. The emotions they must have poured into their art to create a movie about emotions and how they should be depicted is well amazing. I have nothing but praise for this book, the artists, the movie, the cast and crew and the whole team that put this together. I love art books and it's always fun to read their scribbles and notes to get an in depth look at how they create such wonderful pieces. This is a great art book, it's super detailed with lots of content and a great introduction by Pete Docter and foreward by Amy Poehler. The book has a nice hardcover and the cover design makes it look like you stumbled upon one of the artists' studio tables and just snapped a photo of the different drawings that were there. There is so much detail and to see how each character was shaped and molded from the beginning to the end product is really cool. If you loved the art of the film, you'll love this book and you can ponder over the intricacies of everything over and over again.  
2 of 2 people found the following review helpful. Take a look inside, Inside Out.  
By ladyvader  
I'm a fan of Disney, not just of the movies, but of the whole history and culture that is behind it. This was a great book too get a look into the behind the scenes of a most innovative film. It was original, and not a reboot, which makes it all the better!

If you loved watching Inside Out and want to know more about the creative process that the artists went through to give us the inspiring movie, you're going to enjoy every page of this book. It's amazing to see early

sketches, character development, and ideas branching out and becoming yet again another Pixar's success. I definitely recommend buying *The Art of Inside Out*. :)

From an adventurous balloon ride above the clouds to a monster-filled metropolis, Academy Award-winning director Pete Docter ("Monsters, Inc.," "Up") has taken audiences to unique and imaginative places. In Disney Pixar's original movie "Inside Out," he will take us to the most extraordinary location of all inside the mind. Growing up can be a bumpy road, and it's no exception for Riley, who is uprooted from her Midwest life when her father starts a new job in San Francisco. Like all of us, Riley is guided by her emotions Joy, Fear, Anger, Disgust, and Sadness. The emotions live in Headquarters, the control center inside Riley's mind, where they help advise her through everyday life. As Riley and her emotions struggle to adjust to a new life in San Francisco, turmoil ensues in Headquarters. Although Joy, Riley's main and most important emotion, tries to keep things positive, the emotions conflict on how best to navigate a new city, house and school. In this groundbreaking and illuminating film, Pixar Animation Studios examines the extraordinary depths of the mind and the powers of emotion and imagination. *The Art of Inside Out* provides an exclusive look into the artistic exploration that went into the making of this vibrant film. Featuring concept art including sketches, collages, color scripts, and much more and opening with a foreword by actress Amy Poehler and introduction by the film's writer and director Pete Docter, this is the ultimate behind-the-scenes experience of the making of this landmark film.

**About the Author** Amy Poehler is an actress, producer, director, and author. She currently stars on the Emmy-nominated *Parks and Recreation*, and appeared for seven seasons on *Saturday Night Live*. Pete Docter is vice president of creative at Pixar Animation Studios and the writer and director of Disney Pixar's *Inside Out*. He directed the Academy Award-winning feature films *Monsters, Inc.* and *Up*, and also worked as an animator, screenwriter, and voice actor. He lives in Piedmont, California.
