Bioware : The Art of Mass Effect: Andromeda before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Art of Mass Effect: Andromeda:

I enjoyed looking through the concept art seeing how certain characters and alien races developed. The commentary was also insightful. However, I'm not sure what happened during the shipping process. I bought new, and when it arrived, in a box, the plastic seal was broken and several pages have been bent and even slightly ripped in a small part of the back of the book. It's a minor issue and has nothing to do with the contents of the book. 7 of 8 people found the following review helpful. Robust compendium By Sundance Wilson The game is great but I felt like there were times when it was stuffed full of detail that I missed, so I'm thrilled to have this book!! Filled with lots of great concept art, character designs, and developer commentary. Great quality

printing and binding too. As an artist it excites me to see people's hard work, and as a bonus, I have a fabulous source for future inspiration. 0 of 0 people found the following review helpful. Beautiful concept art, but lacking in a few areas. By Sean Campbell Seeing the evolution of the concept art is worth the price, however as per my headline there are few areas that do not have enough content. With all of the various firearms new and old, it is surprising that there is only one page (two if you count melee weapons) of weapons. For the book's faults, I would still suggest this to fans of Mass Effect and of sci-fi art at large.

The award-winning Mass Effect series captured the renegade hearts and paragon souls of gamers everywhere with its memorable characters, stunning visuals, and visceral combat! Now, journey to a new galaxy with Dark Horse's The Art of Mass Effect Andromeda- featuring never-before-seen art of the hotly anticipated game's characters, arsenal, locations, vehicles, and more! This deluxe hardcover is an essential addition to any gamer's collection! Exclusive never before seen concept art from the making of Mass Effect Andromeda! The comprehensive companion to the wildly anticipated Mass Effect Andromeda!
