**Disney Book Group : The Art of Minnie Mouse (Disney Editions Deluxe)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Art of Minnie Mouse (Disney Editions Deluxe):

0 of 0 people found the following review helpful. ... sure that the person I purchased it for will love it. By Liz L. This book was purchased as a gift for someone else so I cannot comment on it but am sure that the person I purchased it for will love it. 0 of 0 people found the following review helpful. Five Stars By HappyGoLuckyBeautiful! 4 of 4 people found the following review helpful. The Perfect Book for Fans of Minnie Mouse! By George H. Taylor Jr. The Art of Minnie Mouse is a book that fans of Minnie Mouse are going to love. Its similar to the Art of Mickey Mouse that was released in 1993, with a few differences. The book is larger than normal, close to a coffee-table style book. There are 160 pages total, with most of the book dedicated to the gallery section. The other two sections are smaller. The first section is the Animated Filmography. Its a complete list of every animated short or film that Minnie has appeared in, from Plane Crazy to Get a Horse. The second section is dedicated to the milestones of Minnie's career. It covers everything from her first book appearance, to her first animated short of her own, to the theme parks, the tv specials of the 1980s and her CG films. Its a wonderful look at our favorite Mouse. The third and final section is the largest. It is a gallery of artwork created by artists that are closely associated with the Disney Company, with a majority being with the Disney Consumer Products division (usually contractors). The images run the gamut from super cute to very sophisticated. They range from traditional sketches and paintings to mixed media and digital creations. The images can be portraits, caricatures and interpretations of Minnie's ears. I would love to have seen a list of the artists and some

biographical information. The artists are listed along with the work, but no other information is given. This is a book made for fans of Minnie Mouse. Historians and animation fans aren't going to find much of interest outside of the artwork. That being said, it's still a wonderfully done book that will delight anyone with an interest in Minnie Mouse.

Minnie Mouse embodies a constant reminder to girls of all ages—including grown-ups!—to live confidently and express themselves. In *The Art of Minnie Mouse*, Disney artists, designers, illustrators, and animators from around the world reimagine their favorite Minnie styles and portray them in a variety of mediums. Minnie's earliest incarnation, her classic red polka-dot look, and trendy modern styles are all newly incarnated in water color, pastel, oil paint, colored pencil, mixed media, and computer graphics pieces that range from the traditional to the unconventional. The book also features a never-before-published comprehensive filmography of Minnie's animated appearances as well as a visual timeline of her career milestones.
