**Mark Cotta Vaz, George Lucas : The Art of Star Wars, Episode II - Attack of the Clones** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Art of Star Wars, Episode II - Attack of the Clones:

0 of 0 people found the following review helpful. A Great Follow Up Art Of BookBy benjamin bannisterI bought this, along with The Art of Star Wars, Episode I - The Phantom Menace and The Art of Star Wars, Episode III - Revenge of the Sith, to finish my trio of Art of Star Wars Prequel books.This book continues the artwork, sketches, and ideas for the sequel to The Phantom Menace. Attack of the Clones has some memorable art: a small group of Jedi surrounded by droids, an army of Clone Troopers, a gigantic battleship crashing back to the ground. All the things you saw on the silver screen started off with artwork like this. And this is a whole book of those conceptual ideas.If you love Art Of books, these Star Wars Prequel Art Of books are a must to add to your collection. Recommended.0 of 0 people found

the following review helpful. Where it all began By Gerry Blue From paper to "digital film", this book shows the reader how early concepts develop into what we see on screen. Amazing drawings by Doug Chiang and his design team leave you breathless. From the deep levels of Coruscant to the beautiful Naboo plains; from the Jedi outfits to the Superbattledroids, you'll learn how all characters and locales came to be in the new movie of the SW Saga, showing the progress in art and effects. Detailed explanations of each drawing add to the experience. A must for Star Wars fans and art aficionados. 0 of 0 people found the following review helpful. Awesome book for artist and/or fans! By Customer This book, along with the other 2 prequels "the art of" books are what every book of this genre should be. It shows a lot of the pre-production stage, for every character, ship, and environment. This book is so rich, you can just flip through and get inspired easily. I recommend this book for any concept artist even if you're not a Star Wars fan or a Sci-fi enthusiast. Just Get It!

For more than twenty-five years, the visual brilliance of the Star Wars films has captivated audiences far and wide. From lush worlds to intricate landscapes, from lavish costumes to amazing creatures, the Star Wars design artists have pioneered the technological revolution, while never surrendering the dazzling sense of wonder. Filled with stunning examples of beautiful, never-before-seen movie artwork, *The Art of Star Wars: Episode II Attack of the Clones* takes us through an incredible gallery of astonishing images. As an added bonus, this volume features the exclusive illustrated screenplay, as well as: More than 500 extraordinary illustrations including sketches, costume designs, set pieces, models, and brilliant full-color paintings An in-depth look at the amazing new creatures introduced in Episode II Fascinating behind-the-scenes accounts and anecdotes related by the artists themselves Magnificent visuals of exotic new planets, exciting new spacecraft, and dramatic new characters such as Jango Fett, Count Dooku, and Jedi Luminara Unduli Thrilling movie poster art art created especially for Star Wars: Episode II Attack of the Clones Experience the Lucasfilm magic with visuals more striking than ever before, and become one of the first to witness the worlds and the wizardry of Star Wars: Episode II Attack of the Clones.
