From Brand: BradyGames : The Art of World of Warcraft before purchasing it in order to gage whether or not it would be worth my time, and all praised The Art of World of Warcraft:

4 of 4 people found the following review helpful. AverageBy Paul MThe book arrived a couple of weeks before I expected it, so that was great and I am very happy with the delivery process. But I am not so happy with the book. It is not bad, but I think that there is too little concept art. I mean, in the race concept art, you find a lot of 3D images of the game and that's not concept, that's result, and I think they could have put more sketches or illustrations. The whole layup is a bit messy. I bought this book because I am a big fan of wacraft and world of warcraft, and I expected as concept art book, something like the Starcraft 2 artbook. I imagine that this difference between layup quality is simply because they got better at doing them. That is the price of practice. Anyway this book is a must have for all fans. 1 of 1 people found the following review helpful. Good for an artbook shipped with the game. By Designer for Games Films and Animation Not the best "Art of..." book I have ever purchased. I use the book mainly to understand the style and direction of blizzard's art, and to be honest there could have been alot more art shown. Several pictures throughout the

book are grainy and clearly enlarged to fill space, there is rarely any insight from the artists, and you don't get to see the stages of design. If you are buying this for the artwork rather than just a casual glance through, make sure you get it at a good price. 0 of 0 people found the following review helpful. Okay book, but not good as new. By Nina. Otherwise good and fast shipping as well (to Finland), but the description was: Used - Very Good. Book has appearance of light use with no easily noticeable wear and it wasn't like that, the book cover wasn't so good and the edges were very worn out.

The World of Warcraft is more than just a game, it's a work of art -- and you can enjoy these unique creations outside of the game with The Art of World of Warcraft. This beautiful hardbound book contains sketches, concepts, and final colored art for the following: All eight races -- Dwarf, Gnome, Human, Night Elf, Orc, Tauren, Troll, and Undead
