Donna Jones Carver : The Ballet Book Workbook I before purchasing it in order to gage whether or not it would be worth my time, and all praised The Ballet Book Workbook I:

0 of 1 people found the following review helpful. Very disappointed. Ballet vocabulary is very limitedBy Maaasatdom.The only reason there is one star is because it is required. Very disappointed. Ballet vocabulary is very limited. It's one this to teach ballet stories, but it's another to teach ballet. Do not buy.

Workbook I of The Ballet Book series is designed for the youngest ballet student. Produced in a delightful coloring book format, Workbook I presents the classic ballet stories of Copplia, The Nutcracker and Swan Lake. Accompanied by beginning vocabulary, simple games and basic ballet positions, Workbook I provides an enjoyable and age-appropriate introduction to ballet study. The Ballet Book series of workbooks was created to give teachers and students supplemental materials to reinforce classroom work. Educationally solid, beautifully illustrated and technically correct, these workbooks are the culmination of over ten years of research and compilation of background material presented.

About the Author Author Donna Jones Carver first conceived the idea of workbooks based on her own experience as a ballet teacher. Wanting to give her students a broader base in ballet, she created lesson plans that formed the basis for Workbooks III, IV and V. Over ten years went into researching, compiling and writing the background materials presented in these workbooks. Carver's many years in ballet, as a student, professional performer, teacher, company director, designer and costumer, lends credibility to this effective series of ballet workbooks. Sally Weatherford, co-author, has professional experience in publications. She also adds her academic background in education, weaving a perfect blend of fun and education to the series. Together, this team has produced workbooks that are educationally solid, technically correct and attractively presented.
