It shows how John, Paul, George, and Ringo have evolved since the break up. Yes, each of their opinions change from time to time but don't we all see things differently at specific points in our lives. In spite of some acrimony over the years, I feel that these guys all basically respected and cared for each other very much. A neat novelty.7 of 7 people found the following review helpful. This is the best book that I have read by the Beatles!By

majoyenracI have read a lot of Beatles books, and I thought that this was the greatest book on them. It is just so much better to actually read the Beatles own words on each other, drugs, and music. This book was well edited and I am still able to read it over and over again. I would recommed this book to anyone who has any interest in The Beatles or who really wants to read a terrific book on the best band ever. 3 of 3 people found the following review helpful. **GOOD BOOK!!!**By A Customer True Quotes from the beatles after the break-up, four individual beatles say about each other, the problems that led to their break-up, from their solo years, to john lennon's death and beyond. Good book for all Beatles fans around the world. \*\*\*JAI GURU DEVA OM\*\*\*
