Some facts are wrong, but this was written before all the eyewitness-to-history tomes were released.4 of 5 people found the following review helpful. It was more the 20 years ago today!!!!!!!!!!!!!!!!!!!!By Virgil Lee PfautchI love this book. When I was growing up in the 70's I bought a copy of it. It was clothbound and had one of the Sgt. Pepper outtake photos of the Beatles on the cover. I poured over this book. I had a very large Beatles collection growing up that unfortunately I lost when I went on my first tour with the United States Army in the 80's. I have replaced most of my collection and finally secured my copy of this great book. What is interesting about Beatles books in the 70's was that they were written only a few years after the GREATEST ROCK BAND IN THE WORLD broke up,so there were always hints of a Beatles reunion. What I loved about this book was the easy reading way it was written and the the great photos. I remember two great shots of John during the Get Back/Let It Be sessions. One shows him sitting with his EphiPhone Casino looking down with sadness. The other is from the roof top of the Apple Building and he is looking over his shoulder and smiling. I also was intrigued by the size of this book, it wsa like an album and you could open it up and pour over it as I did many many times. Anyway as a previous reviewer wrote if you can score a copy of this book, grab it you won't be disappointed.0 of 0 people found the following review helpful. and in fineBy Dick de JagerEactly what I needed, and in fine condtion
