**Jeremy Roberts : The Beatles (Biography (Lerner Hardcover))** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Beatles (Biography (Lerner Hardcover)):

4 of 5 people found the following review helpful. Listen My Children ...By BeatleBangs1964...and you shall hear the Beatles sing with good cheer!"In nineteen hundred and sixty-four, the Beatles Hit the U.S. Shores!"This is a good intermediate level book for older children about the Beatles. The text is clear and direct and no doubt young fans will love it and those just learning about the Beatles will become fans.
