Stephen Spignesi : The Beatles Book Of Lists before purchasing it in order to gage whether or not it would be worth my time, and all praised The Beatles Book Of Lists:

0 of 0 people found the following review helpful. Two Stars By Buckyboy was kinda boring... 0 of 0 people found the following review helpful. Five Stars By john verrecchiogreat service and book 5 of 5 people found the following review helpful. Interesting and entertaining, but not always accurate. By A Customer Spignesi's BEATLE BOOK OF LISTS is written with a real sense of fun and enjoyment. It chronicles various minutiae to be found in the careers and music of the Fab Four, sometimes quirky but always amusing. Unfortunately, there are some apparent inaccuracies in some of

the information recorded (most glaringly in a reference to the date of John Lennon's wedding and the birth of his son Julian) which tends erode some of the author's credibility. Generally though, a sense of fun permeates the pages, and the author's respect and appreciation for the Beatles is evident throughout. THE BOOK OF BEATLE LISTS is certainly a worthy addition to a Beatle collector's library, and a good book to have as a reference for Beatle trivia questions.
