Scott Belmer, Garry Marsh : The "Beatles" Christmas Book: Everywhere it's Christmas before purchasing it in order to gage whether or not it would be worth my time, and all praised The "Beatles" Christmas Book: Everywhere it's Christmas:

1 of 1 people found the following review helpful. 16 Magazine would have done betterBy cynicalgirlthan this obviously homemade, error filled book. The so called exclusive photos are not and it is filled with extraneous blather to fill out the pages which already have big print and plenty of white space. The author does not hide his preference for one Beatle over another (or three) which is ok if you are writing about one person but gets tiring when you think it is a book about the guys as a unit. Other people may like it but for me, a lifelong fan, it was a bore.0 of 1 people found the following review helpful. Five StarsBy R. HoerrLove Everything Beatles and this book is a treasure! Thanks!!!

For the first time, the relationship between the Beatles and Christmas is explored in this unique biography. The chapters feature the bands complete holiday time line, fan club and solo Christmas recordings, rare flexis, BBC radio specials, and an array of photographed memorabilia. Behind-the-scenes information on the groups yuletide concerts, their connections with Disney, and a complete discography of their Christmas albums are also included. With insider commentary from the bands former chauffeur, this account combines the history of a legendary quartet with a cherished time of year, offering an essential addition for any collection.
